METABOX series
(See inside for adjustments.)

Clip on

screw on
**Side adjustment**

1. Loosen 2 screws on each bracket that attach front.
2. Adjust drawer front.
3. Tighten screws.
   Range = 1/8” (3mm)

**Height adjustment**

Height Up:
Rotate adj. cam.

Height Down:
1. Back off height adj. cam
2. Open cover with POZI driver and push drawer front down, close cover.
3. Rotate cam to bring drawer front up into position.

**Tilt adjustment**

For taller drawer with gallery rails.

Turning the rails by hand extends or reduces their length which tilts the drawer front.
